

Flat Rooftop Solar Mounting System

Series Name : FR-I

Technical Data

- Solar system: Flat rooftop solar system
- Roof type: commercial or industrial roof top
- Material: hot-dip galvanized steel & Aluminum alloy & stainless steel
- Max snow load: 0.8 kn/m^2
- Max wind load: 32 m/s
- Mounting angle: customized design; fixed
- Module: framed crystalline module, unframed thin film module
- Module connection: middle & end clamp

Features

- Fit to flat concrete rooftop
- Ingenious design to keep roof water proof
- Material saving & Cost efficient
- Quick & easy mounting
- 10 years durability warranty
- 25 years anti corrosion warranty
